DAMA-NCR: Grow Your Knowledge

2011 - 2012

# PROGRAM APPROACH

The Data Management Association (DAMA) is moving toward a more structured body of knowledge (DAMA-DMBOK). DAMA-NCR plans to use that terminology as a framework for our programs.

DAMA-NCR meetings will provide members an opportunity as a low-cost ongoing education option.

Additionally DAMA-NCR is opening a dialog for collaboration with other disciplines that touch on data, empowering our members to learn the vocabularies which would allow them to speak knowledgeably with non-data-management peers in their organizations.
